PROFILE

Brand designer specialized in conceptual identity systems and structured visual thinking. I have developed 30+ brand projects across diverse industries, leading naming, positioning and full identity systems.

Focused on building brands that are not only visually strong, but structurally coherent and adaptable.

Currently seeking to grow within a creative agency environment.

WORK EXPERIENCE

Founder & Brand Designer

Nikato Studio

2016 – Present

- Led 30+ branding projects across multiple industries, developing naming, positioning and complete identity systems.
- Designed structured visual systems including logos, typography frameworks and brand guidelines.
- Directed projects from conceptual development to real-world implementation.
- Collaborated with multidisciplinary teams when required, managing creative direction and decision-making.

Graphic Designer

Tata Consultancy Services (TCS)

Full-time | 2 Years

- Developed visual communication assets for corporate clients including PwC.
- Worked within established brand systems and strict corporate guidelines.
- Collaborated with cross-functional teams in structured, deadline-driven environments.
